

A New Star is born

A State-of-the-art Power Transformer Manufacturing Facility upto 1000MVA/500KV at Nellore in Andhra Pradesh

< Proudly commences commercial production today >

Yet another contribution to the nation's Power development programme from Prime Group to help speed up adding Power capacity in the country and to support Power equipment segment Globally

- 10000 MVA Annual manufacturing capacity in the first phase, to be expanded to 35000 MVA upto 1200 KV Class in the second phase.
- Technical collaboration with world renowned PJSC "VIT" a part of Electroavod, one of the largest manufacturer of Power Transformers in the world.
- Highly skilled human resource trained by VIT specialists.
- State-of-the-art manufacturing facility, fully integrated, dust controlled and air conditioned.
- Globally advanced swing shear technology based CRGO cutting & slitting lines with de-burring attachment from GEORG of Germany.
- World-class testing lab equipped with most advanced static test system providing extremely accurate control over the testing process – first in India.
- Advanced Technology Faraday cage designed for near zero partial discharge testing.
- State-of-the-art vertical winding machines
- Unit located in close proximity to Krishnapatnam, Ennore and Chennai sea ports for catering to global markets.
- Environment friendly Green Building under Leed's certification.

POWER TRANSFORMER TO POWER YOUR WORLD
